## Power On the Right

*By William W. Turner. 272 pp. Ramparts. $5.95.*

Segments of the far right described from the left. Mr. Turner covers such exotica as the Birchers, the Minutemen, various Christian anti-Communist

T

groups. Some of this is not new, some is and brings the situation up to date. Not surprisingly the author speculates on the involvement of the Minutemen and/or Klan in the Kennedy assassination, which seems like poking old bones. All told, good reporting but lacking in historical perspective.
